# WHY WORKX?

Workx advocaten is no-nonsense law firm. We prefer to keep things simple and are known for our personal commitment and approach.

We are strongly convinced that legal issues are best dealt with at the earliest stage. That is why we greatly value truly accessible contact with our clients.

When assisting our clients, we always focus on a pragmatic solution, not on detailed academic contemplations. A sound practical solution requires a lawyer's specialized knowledge.

At Workx advocaten, we are proud of our lengthy employment law experience and specialized knowledge. We love our work and this is reflected in the results.

This knowledge and experience gained, allows us to provide our services swiftly. Our team of specialized employment lawyers also enables us to add members to the dedicated team, when appropriate.

## 'OUR CLIENTS VERY MUCH APPRECIATE OUR RESPONSIVE SERVICES.'

Our clients feedback is vital for maintaining the desired level of services. We therefore often evaluate our services and make sure that expectations are fully aligned.

Dealing with individual dismissal cases is a daily routine for us. We tend to be determined negotiators, without losing sight of what is reasonable. # ANNEXES

# WORKS COUNCIL REQUEST FOR ADVICE PROCESS

The consultation process applies in case of important company decision. Such as mergers and acquisitions, funding, organizational changes and engaging external advisors to advise on these matters. Diligent communication and timely involvement of the works council (WC) is of the essence

## STEP 1 INFORM THE WC OF UPCOMING IMPORTANT COMPANY DECISIONS.

The company needs to inform the WC of important decisions. These decisions are laid down in article 25 and 27 WC Act.

## STEP 2 REQUEST THE WC TO ADVICE ON THE INTENDED DECISION.

The advice needs to be requested at such a point in time that the advice can still materially influence the eventual decision. The advisory request needs to contain (a) the reasons for the intended decision  
(b) the consequences for personnel (c) the measures considered to deal with the consequences

## STEP 3 CONSULT THE WC.

Discuss the request for advice in the WC meeting. The intended decision can be elaborated on and WC questions can be answered.

## STEP 4 THE WORKS COUNCIL RENDERS ITS ADVICE.

There is no statutory time limit in place in view of the advisory process. As such, it is vital to share expectations on timing and to come to try to agree on timing.

The WC renders a positive advice.

The WC renders a positive advice, but with conditions.

The WC renders a negative advice.

## STEP 5A

Formalise the intended decision and inform the WC of the decision taken.

## STEP 5B

### REVIEW THE CONDITIONS, TAKE THE DECISION AND INFORM THE WC'.

The WC needs to be informed on the final decision. In case the final decision is not fully in line with the WC advice, the deviations have to be explained..

## STEP 6

### THE WORKS COUNCIL MAY CHALLENGE THE DECISION.

The WC may challenge the final decision in court within 1 month of being informed on the decision.

1 MONTH HAS PASSED?

YES, THE COMPANY MAY EXECUTE THE DECISION.

NO, THE WC MAY STILL CHALLENGE THE DECISION.

## SUSTAINABLE DEVELOPMENT GOALS

The sustainable development goals ("SDG") with Workx advocaten are constantly in motion. We have decided to focus on the following topics: 'diversity, equity & inclusion', 'the planet', 'contributions to democratic, participatory and peaceful societies based on the rule of law' and 'contribution to society and culture'.

### Diversity, equity & inclusion

Within our firm we strive for diversity, equity and inclusion.

In view of the size of our firm we have not set any formal headcount goals to increase diversity in recruitment, retention and promotion. We support an organic healthy growth of our firm and we consider it important that all lawyers and staff develop at their own pace. All lawyers and staff make a yearly individual development plan. Two partners guide and assist the team in achieving their goals via periodic meetings. There is no obligation to become either a counsel and/or a partner of our firm. So no "up or out" system. At the same time we openly share with our team that they can all become partner: i) if they want to and ii) if they meet the targets and requirements set. Those targets and requirements for becoming either counsel or partner are accessible to all of our lawyers.

Our firm is friend and active supporter of the FORWARD foundation, an LGBTQIA+ foundation for legal professionals in the Netherlands. FORWARD was founded in 2015 supported by twelve law firms in the Netherlands and has ever since been supported by many other firms and companies active in the legal sector.

All FORWARD founders and friends are committed to the open and inclusive working environment that FORWARD pursues. Each employee can participate.

Also outside our firm we explore activities within this field. One of our partners actively contributes to the Foundation Give a Damn. This foundation supports projects worldwide that have the potential to produce practical results and create concrete opportunities for LGBTI's, including projects in difficult circumstances. They support small-scale projects and initiatives that focus on improvement of human rights, living and working conditions.

### The planet

We try to reduce our carbon footprint in various ways.

- ★ Within a law firm a lot of paper is being used. We try to reduce printing and copying as we have arranged for electronic file keeping.
- ★ Also, we encourage our employees to cycle to work and to make use of public transport. Each employee starting within our firm receives a Workx bicycle.
- ★ We serve vegetarian lunches within our firm.
- ★ As a firm, we financially contribute to the World Nature Fund.

### Contributions to democratic, participatory and peaceful societies based on the rule of law

As we are lawyers, we feel that we should take an active role in defending the rule of law. As many constitutional states – also within Europe - are under pressure. For that reason we encourage our team members to participate in and contribute to initiatives on this topic.

- ★ One of our lawyers is secretary of the board of the Lawyers for Lawyers foundation. This is an independent and non-political Dutch foundation, operating on a worldwide scale, promoting and protecting the independence of the legal profession through the support and empowerment of lawyers who face reprisals, interferences and restrictions because of their work.
- ★ Another lawyer of our team is board member of the Foundation of the Dutch Auschwitz Committee, organising among others the annual Dutch Auschwitz memorial. The Foundation aims to create greater tolerance and respect for other ethnic groups and disadvantaged communities.

### Contribution to society and culture

Our firm is a member of and financially contributes to the International Documentary Festival Amsterdam. We consider it important to contribute to vital culture and to the development of documentaries that are able to tell the untold and ignite a public debate on crucial topics in our society.

- ★ One team member provides language lessons to refugees and another team member organises parties and trips for children whose parents/guardians can't afford to do so. One of our partners is a supervisor at a Mental Health Care institution, on a pro bono basis and one team member is involved in the charity 24 The Planet to raise money and create awareness for global warming.

# GENERAL TERMS AND CONDITIONS

These general terms and conditions apply to all services provided by Workx Advocaten.

Our clients are hereinafter referred to as 'you', and Workx as 'we'.

## 1. The assignment

You engage us on the basis of a service agreement (overeenkomst van opdracht).

## 2. Who will execute the assignment?

After consultation we will determine which lawyers in our office can assist you best with the assignment. This depends on among others the different specializations of our lawyers and availability. In some cases we will engage a third party to assist with the assignment. We will discuss this with you beforehand.

## 3. Our remuneration and the term of payment

Our fee is calculated on the basis of the worked hours multiplied by the agreed hourly rate.

This amount is increased with a reimbursement for incurred costs.

Our work will be invoiced on a monthly basis. The term of payment is 30 days. After the expiration of this term, we are entitled to claim statutory interest and extrajudicial collection costs. These costs jointly amount to 15% of the principal amount.

## 4. Not satisfied with our work? Let us know.

If you are not satisfied with our services, we would like to be informed as soon as possible. All complaints expire one year after you have found out, or reasonably should have found out, about the existence of the complaint.

## 5. Liability

We do everything we can to execute our assignment in the best possible way. However, it remains possible that you will incur damages due to the execution of the assignment. Our insurance may covers such.

Our liability for damages is limited to the amount paid by our professional liability insurance. If our insurer will not pay for any reason, any liability is limited to the amount you paid us in relation to the assignment. This amount is capped at EUR 10.000. We are not liable for any errors or deficiencies of the third parties we have engaged.

## 6. Finally

Our agreement is governed by Dutch law. The Amsterdam District Court has exclusive jurisdiction.

Third parties we may engage are for example: a translator, notary or tax consultant. Or another lawyer specialized in another area of law.

Examples of additional costs are: travel expenses, court fees, courier costs, translation fees and in general the cost of third parties.
